Tell the AI that it is a calculator, not a handyman. It must not come up with anything on its own; it must only follow the rules.

1. Use an “If-Then” structure in the prompt. For example:

- IF the job is “Wallpapering” AND the type is “Non-woven wallpaper”, THEN the tool list is: [Paint Roller, Brush, Measuring Tape, Pencil].
- IF the job is “Wallpapering”, THEN “Latex Paint” must NEVER be added.
- IF the job is “Wallpapering” AND the type is “Non-woven wallpaper”, THEN “Wallpapering Table”, “Glue Roller” and “Steamer” must NEVER be displayed.

2. Explicitly exclude unnecessary items.

Literally state: “Do not add paint, a wallpapering table or a steamer if only wallpapering has been selected.”

3. Use a fixed format (tables or JSON).

Don’t ask for a long block of text. Instead, request a table with fixed columns, as shown in Document 2.

4. Enforce a step-by-step process (Chain of Thought).

- Step A: Check the input (type of job, dimensions, materials).
- Step B: Apply the rules (which materials should or should not be included).
- Step C: Generate the final list.

5. Test the logic with unusual inputs.

Ask: “What happens if I enter 1 m² of patterned wallpaper?” If the AI still calculates 9 hours or adds paint, the prompt is not strict enough.

By giving the AI less freedom and allowing it to follow only the rules you have defined, these errors can be prevented.

EASY4DIY – CARPENTRY CATEGORY

Final Version – 5 October 2026
Checked 5 times.

All prices are average indicative prices and may vary depending on brand, quality, retailer, quantity, and date. Manufacturer instructions and current Dutch requirements always take precedence.

DOCUMENT 1 – LIST OF JOBS

1. Laying flooring – laminate.
2. Installing a door – internal flush door.
3. Installing skirting boards – self-adhesive skirting.
4. Renovating stairs – laminate.
5. Building a partition wall – plasterboard with metal studs.

⚠ Easy4DIY Safety Boundary

Easy4DIY does not cover the removal or modification of load-bearing structures. If there is any doubt, or if a wall may be load-bearing, it must first be assessed by a qualified professional. Modifying a load-bearing structure may require a permit.

DOCUMENT 2 – MATERIALS + AVERAGE COSTS

C = Average consumer price, including VAT
P = Average professional price, excluding VAT

The prices below are intended as fixed calculation prices for the app. The live app may use current product prices in the future.

JOB 1 – LAYING FLOORING (LAMINATE)

Material	Unit	C Price	P Price
Laminate flooring	m²	€22	€18
Underlay	m²	€4	€3

Transition profile, optional	piece	€12	€8

Standard material calculation in the app per m²: **€26 C / €21 P**.

Transition profiles are added only when necessary.

JOB 2 – INSTALLING A DOOR (INTERNAL DOOR)

Material	Unit	C Price	P Price
Internal flush door	piece	€130	€90
Hinge set, 3 hinges	set	€24	€15
Lock	piece	€15	€10
Door handle	set	€12	€8
Sealant	piece	€7	€4.50

Standard material calculation in the app per door: **€188 C / €127.50 P**.

JOB 3 – INSTALLING SKIRTING BOARDS (SELF-ADHESIVE)

Material	Unit	C Price	P Price
Self-adhesive skirting board	metre	€10	€7
Degreaser, one-time and optional	piece	€7	€5

Standard material calculation in the app per metre: **€10 C / €7 P**.

Degreaser is added separately per job when necessary.

JOB 4 – RENOVATING STAIRS (LAMINATE)

Material	Unit	C Price	P Price
Laminate stair covering	per step	€35	€25
Stair adhesive, for approx. 5 steps	set	€8	€5
Sealant, optional	piece	€6	€4
Corner profiles, optional	piece	€6	€4

Standard material calculation in the app per step: **€36.60 C / €26.00 P**.

Sealant and corner profiles are added only when necessary.

JOB 5 – BUILDING A PARTITION WALL (PLASTERBOARD + METAL STUDS)

Material	Unit	C Price	P Price
Plasterboard	piece	€12	€7.50
C-stud profile	metre	€4	€2.50
U-track profile	metre	€4	€2.50
Hammer-in wall plugs	piece	€0.30	€0.20
Plasterboard screws	box	€8	€5
Joint tape	roll	€6	€4
Jointing/plaster compound	bag	€15	€10
Sandpaper	piece/roll	€5	€3.50

Standard material calculation in the app per m²: **€25 C / €17 P**.

This is a calculated value that includes plasterboard, profiles, screws, joint tape, and jointing compound. Optional reinforcement is added separately.

DOCUMENT 3 – TOOLS

Standard tools are generally assumed to be owned by the user.

Large or specialised equipment can be rented or purchased.

1. LAYING FLOORING (LAMINATE)

Standard tools:

- Spirit level
- Try square
- Sliding bevel
- Utility knife
- Hammer
- Laminate flooring starter kit
- Contour gauge
- Knee pads
- Jigsaw
- Cordless screwdriver/drill
- Extension cable

Large/optional equipment:

- Mitre saw, if necessary

2. INSTALLING A DOOR (INTERNAL DOOR)

Standard tools:

- Tape measure
- Spirit level
- Try square
- Hammer
- Chisel
- Cordless screwdriver/drill with bits
- Jigsaw
- Spade bit
- Caulking gun
- Blanket
- Door lifter
- Extension cable

Large/optional equipment:

- Handheld circular saw
- Router

3. INSTALLING SKIRTING BOARDS (SELF-ADHESIVE)

Standard tools:

- Tape measure
- Pencil
- Spirit level
- Sliding bevel
- Try square
- Mitre box
- Fine-toothed saw or laminate cutter
- Cloth
- Extension cable

Large/optional equipment:

- Mitre saw, optional

4. RENOVATING STAIRS (LAMINATE)

Standard tools:

- Sliding bevel
- Stair gauge
- Spirit level
- Filling knife
- Notched adhesive trowel
- Utility knife
- Caulking gun
- Jigsaw
- Cordless screwdriver/drill
- Extension cable

Large/optional equipment:

- Mitre saw
- Staple gun, only if specified by the manufacturer

5. BUILDING A PARTITION WALL (PLASTERBOARD + METAL STUDS)

Standard tools:

- Spirit level
- Utility knife
- Plasterboard/metal snips
- Filling knife
- Jigsaw
- Cordless screwdriver/drill
- Household step ladder
- Extension cable

Large/optional equipment:

- Rotary hammer
- Scaffold, if necessary

Working safely: Use appropriate personal protective equipment, inspect tools, and maintain a stable working position. Before drilling or sawing into walls, check for pipes and electrical cables.

DOCUMENT 4 – FAQ

1. LAYING FLOORING (LAMINATE)

2. Should laminate flooring be acclimatised?
Follow the manufacturer's instructions; often 48 hours.

3. What if the subfloor is uneven?
Level it or use a suitable underlay.

4. Do I need underlay?
Usually yes, for sound insulation and stability.

5. How much space should I leave around the walls?
Maintain the expansion gap specified by the manufacturer.

6. Do I need to wait before walking on the floor?
Follow the click-system instructions; many systems can be walked on immediately.

7. How can I prevent creaking?
Ensure the subfloor is level and the flooring is installed correctly.

8. What if a plank is damaged?
Replace it according to the manufacturer's instructions.

9. How do I maintain the floor?
Use a suitable cleaning product and avoid excessive moisture.

10. What safety precautions are required?
Wear eye and respiratory protection when sawing.

11. What is the best tip?
Read the installation instructions and check the subfloor.

2. INSTALLING A DOOR (INTERNAL DOOR)

13. What type of internal door should I choose?
A flush door or a rebated door.

14. How do I measure the door and frame?
Measure the structural opening and allow the clearances specified by the manufacturer.

15. Where should the hinges be positioned?
Follow the manufacturer's instructions.

16. How can I prevent the door from sticking?
Ensure the correct clearances and alignment.

17. What if the door does not hang properly?
Check the frame, hinges, and clearances.

18. Do I need to wait before painting?
Follow the paint manufacturer's instructions.

19. How can I prevent warping?
Apply suitable primer and finish.

20. How do I maintain the hinges and locking hardware?
Follow the manufacturer's instructions.

21. What are the most common mistakes?
Incorrect measurements, clearances, or hardware.

22. What is the best tip?
Use a door lifter and work safely.

3. INSTALLING SKIRTING BOARDS (SELF-ADHESIVE)

24. Should I clean the wall and floor?
Yes. They must be clean, dry, and dust-free.

25. How do I cut a mitre?
Use a mitre box or mitre saw and measure the angle.

26. How many metres of skirting do I need?
The perimeter plus 10% for cutting waste.

27. How can I prevent the skirting from coming loose?
Ensure the floor is clean and dry, then press the skirting firmly into place.

28. How should I deal with uneven surfaces?
Do not use sealant to compensate for unevenness; ensure the floor is level.

29. Do I need to wait before putting the skirting under stress?
It is generally ready immediately; follow the adhesive or sealant instructions.

30. What if the skirting does not fit tightly?
Check the floor; use filler for larger gaps.

31. How do I maintain skirting boards?
Wipe them with a damp cloth.

32. What safety precautions are required?
Wear eye and respiratory protection when sawing.

33. What is the best tip?
Test the angle on a scrap piece first.

4. RENOVATING STAIRS (LAMINATE)

35. Do I need to level the stairs?
Only if necessary; the surface must be level and stable.

36. How do I calculate the number of steps and measurements?
Count the steps, measure their width, depth, and height, and allow for cutting waste.

37. How do I attach the covering?
Use an adhesive and installation method suitable for laminate.

38. Do I need to wait before using the stairs?
Follow the adhesive manufacturer's instructions.

39. How do I finish the edges and corners?
Use stair nosings and profiles.

40. What if a step is damaged?
Repair or replace it.

41. How do I maintain the stairs?
Follow the maintenance recommendations.

42. What safety precautions are required?
Ensure stable access, adequate ventilation, and suitable protective equipment.

43. What are the most common mistakes?
Incorrect measurements, inadequate preparation, improper adhesive use, and poor finishing.

44. What is the best tip?
Fit one step first and use it as a reference.

5. BUILDING A PARTITION WALL (PLASTERBOARD + METAL STUDS)

46. What is the correct centre-to-centre spacing?
600 mm is common; follow the system manufacturer's instructions.

47. How do I build a level frame?
Install the U-track profiles according to the system and check the floor and ceiling.

48. Do I need to wait before filling the joints?
Follow the product instructions.

49. How do I finish joints and screw holes?
Use jointing compound and joint tape according to the system instructions.

50. What if the wall or floor is uneven?
Adjust the frame correctly; do not use expanding foam as structural filler.

51. How do I maintain the wall?
Follow the paint and plasterboard manufacturers' instructions.

52. What safety precautions are required?
Use eye, hand, and respiratory protection, and a stable ladder or scaffold.

53. What are the most common mistakes?
Incorrect system selection, stud spacing, fixing, and finishing.

54. What is the best tip for a sturdy wall?
Plan heavy mounting points and reinforcement in advance.

55. How do I hang a heavy object on this wall?
Use suitable plasterboard fixings or a reinforced wooden block behind the plasterboard.

DOCUMENT 5 – TIME ESTIMATES & SAVINGS

Calculated hourly rate for a carpenter: €45/hour

The times are calculation values for the app and are not a guarantee for every situation.

They assume a normal situation with good access. Additional work caused by preparation, the substrate, custom work, accessibility, or material selection is assessed separately.

TIME ESTIMATES

Job	Unit	Professional time	DIY time	Rate
1. Laying laminate flooring	per m²	0.15 h	0.45 h	€45/h
2. Installing an internal door	per door	2.5 h	7.0 h	€45/h

3. Installing self-adhesive skirting	per metre	0.10 h	0.30 h	€45/h
4. Renovating stairs with laminate	per step	0.75 h	2.0 h	€45/h
5. Building a plasterboard partition wall with metal studs	per m²	0.33 h	1.0 h	€45/h

AVERAGE MATERIAL COSTS USED FOR APP CALCULATIONS

To keep the savings calculation consistent, the app uses the same assumptions as Document 2.

1. LAYING FLOORING (LAMINATE)

Consumer material cost: €26 per m²
Professional material cost: €21 per m²

Professional: 0.15 × €45 = €6.75 labour + €21 materials = **€27.75 per m²**

DIY: €0 labour + €26 materials = **€26.00 per m²**

Indicative savings: **€1.75 per m²**

2. INSTALLING A DOOR (INTERNAL DOOR)

Consumer material cost: €188 per door
Professional material cost: €127.50 per door

Professional: 2.5 × €45 = €112.50 labour + €127.50 materials = **€240.00 per door**

DIY: €0 labour + €188 materials = **€188.00 per door**

Indicative savings: **€52.00 per door**

3. INSTALLING SKIRTING BOARDS (SELF-ADHESIVE)

Consumer material cost: €10 per metre
Professional material cost: €7 per metre

Professional: 0.10 × €45 = €4.50 labour + €7 materials = **€11.50 per metre**

DIY: €0 labour + €10 materials = **€10.00 per metre**

Indicative savings: **€1.50 per metre**

4. RENOVATING STAIRS (LAMINATE)

Consumer material cost: €36.60 per step
Professional material cost: €26.00 per step

Professional: 0.75 × €45 = €33.75 labour + €26.00 materials = **€59.75 per step**

DIY: €0 labour + €36.60 materials = **€36.60 per step**

Indicative savings: **€23.15 per step**

5. BUILDING A PARTITION WALL (PLASTERBOARD + METAL STUDS)

Consumer material cost: €25 per m²
Professional material cost: €17 per m²

Professional: 0.33 × €45 = €14.85 labour + €17 materials = **€31.85 per m²**

DIY: €0 labour + €25 materials = **€25.00 per m²**

Indicative savings: **€6.85 per m²**

⚠ **This is a calculation baseline only.** In practice, additional materials, reinforcement, finishing, bends, penetrations, or unforeseen circumstances may increase costs and time.

APP LOGIC – FIXED RULES

1. Use the most common material first
For each job, the app uses the most common material or product type as the standard starting point.

2. Average indicative price
The app uses one average indicative price for each standard material.

3. No unnecessary double-counting of materials
Components normally supplied with a product must not be counted again as separate materials.

4. Optional materials
Additional materials are added only when required by the situation or product selection.

5. Manufacturer instructions take priority
Manufacturer instructions always take precedence over general calculation values.

6. Situation check
Before starting, the app asks about:

- Type of job
- Dimensions
- Material
- Substrate
- Accessibility
- Desired finish or execution

7. Structural safety
Do not remove or modify load-bearing structures. If there is any doubt about whether a wall is load-bearing, have it assessed by a qualified professional first.

8. Stop conditions
The app must stop and refer the user to a qualified professional in cases involving:

- Load-bearing structures
- Materials suspected of containing asbestos
- Damp or leakage problems
- Unknown pipes or cables within structures
- Work requiring a permit
- Complex structures

9. Testing
After completing the work, always check:

- The result is level and stable
- Fixings are secure
- Everything functions correctly
- The finish is neat

10. Costs
The app displays an average indicative price. The live app may retrieve current product prices in the future.

11. Time estimates
The app displays a calculated installation time and clearly states what is and is not included.

12. Safety
Use appropriate personal protective equipment and follow the instructions for materials, tools, and installations.

END – CARPENTRY CATEGORY

This is correct; this is the complete material I had sent you.

We had planned it this way: the “Select your job” section currently only displays the general title, whereas the specific description should appear after it to make things clearer and easier to understand.

App Adjustment – Step 3 (Select your job)

Add the specific description from Document 1 directly after each job name in the selection list.

- Vloer leggen → Lay flooring – laminate
- Deur plaatsen → Install door – internal flush door
- Plinten monteren → Install skirting boards – self-adhesive skirting
- Trap renoveren → Renovate stairs – laminate
- Scheidingswand plaatsen → Install partition wall – plasterboard with metal studs

This will make the app much clearer for users at a glance. However, I can no longer see this in the latest APK. Has this change been removed or not implemented?

Easy4DIY Privacy Policy

Last updated: [Insert date here]

Welcome to Easy4DIY. Easy4DIY is an application (the “App”) and a trade name of DigyFix.com. We respect your privacy and believe it is important that you can trust us to handle your personal data responsibly. This Privacy Policy explains what data we collect through the App, why we collect it, and what rights you have.

DigyFix.com (hereinafter referred to as “we,” “us,” or “our”) is the data controller responsible for processing your personal data as described in this policy.

1. What Data Do We Collect?

Depending on how you use the App, we may collect the following personal data:

- **Account Information:** When you create an account, we collect your name, email address, and password.
- **DIY Job and Project Information:** Information you enter to plan your DIY project, such as selected trade categories, specific jobs, measurements (length, width, and height), and selected materials and tools.
- **Location Data (if applicable):** If you give permission, we may use your approximate location to find DIY stores or "De Vakman" (the professional) near you. You can disable this at any time in your phone settings.
- **Payment Information:** When you subscribe, we process billing information. Payments are handled by a secure third-party payment provider. We do not store complete credit card details ourselves.
- **Communication Data:** If you contact us, for example, through customer support or the FAQ section, we retain that correspondence.
- **Technical Data:** Information about your device (phone type and operating system), IP address, app version, and crash reports. This helps us improve and secure the App.

2. Why Do We Process This Data? (Purposes)

We use your data exclusively for the following purposes:

- **To Operate the App:** We use your project information to calculate materials, display prices, and generate step-by-step instructions.
- **Account Management:** To allow you to log in and save your progress.
- **Subscriptions and Payments:** To activate and bill your subscription.
- **Customer Support:** To answer your questions through our support channels.
- **App Improvement:** Through anonymised statistics and crash logs.
- **Communication (with your consent):** To send you updates, newsletters, or promotional messages.

3. What Legal Grounds Do We Rely On?

We process your data on the following legal grounds under the General Data Protection Regulation (GDPR):

- **Performance of a Contract:** Because you use our App and/or have purchased a subscription.
- **Consent:** For specific purposes, such as sending marketing emails or using GPS location data.
- **Legitimate Interests:** To improve the App, protect against fraud, and optimise our services.

4. Do We Share Your Data with Third Parties?

We never sell your data to third parties. We only share your data when strictly necessary:

- **With "De Vakman":** If you explicitly select the "Easily request a quote" option (Step 7 in the App), we share the job description and measurements you provide with the relevant professional or affiliated network.
- **With Service Providers:** Companies that help us operate the App, such as hosting providers, payment providers, and analytics services. They may only use your data to provide their services to us.
- **Legal Obligations:** When required by law, for example, in connection with a fraud investigation.

5. Data Retention Periods

We do not retain your personal data for longer than is strictly necessary for the purposes for which it was collected.

- We retain your account information for as long as you have an active account.
- We retain invoice and billing information for 7 years to comply with tax record-keeping requirements.
- If you delete your account, we will delete or anonymise your data within 30 days, unless a legal retention obligation applies.

6. Security of Your Data

DigyFix.com takes the protection of your data seriously and implements appropriate measures to prevent misuse, loss, unauthorised access, unwanted disclosure, and unauthorised modification. Connections to the App are secured using SSL/TLS.

7. Your Rights

Under the GDPR, you have several rights regarding your personal data:

- **Right of Access:** You can request information about the data we hold about you.
- **Right to Rectification:** You can request corrections to inaccurate data.
- **Right to Erasure (Right to Be Forgotten):** You can request that your data be deleted.
- **Right to Restriction of Processing:** You can request that the processing of your data be restricted.
- **Right to Data Portability:** You can request your data in a commonly used file format.
- **Right to Object:** You can object to the use of your data for marketing purposes.

To exercise your rights, you can contact us using the details provided at the end of this document. We will respond to your request within 30 days. You also have the right to lodge a

complaint with the Dutch Data Protection Authority (*Autoriteit Persoonsgegevens*) in the Netherlands.

8. Children

Our App is not intended for children under the age of 16. We do not knowingly collect personal data from children under 16. If you believe that a child under 16 has provided us with personal data, please contact us so that we can delete it.

9. Changes to This Privacy Policy

We may update this Privacy Policy from time to time, for example, when new features are added to the App. The most recent version will always be available in the App and on our website (www.easy4diy.com). In the event of significant changes, we will notify you through the App or by email.

10. Contact

If you have any questions about this Privacy Policy or how we handle your personal data, please contact us:

Help & Support

How Can We Help You?

Welcome to the Easy4DIY help desk. We want your DIY project to go as smoothly as possible. Browse the frequently asked questions below or contact us directly.

Frequently Asked Questions (FAQ)

1. How exactly does the Easy4DIY app work?

The app guides you through 7 simple steps. You select your trade category, the job, and the measurements (Steps 1–3). The app then automatically calculates the required materials, prices, and tools for you (Steps 4–7). This way, you know exactly what you need before heading to the DIY store.

2. Does the app work without an internet connection?

Yes, basic information and your saved projects are available offline. Please note that you need an internet connection to retrieve the latest live prices and watch videos.

3. Are the prices in the app up to date?

The app uses the latest average prices from DIY stores. Please keep in mind that prices may vary depending on promotions, location, or delivery costs. The app provides a very good estimate of the costs.

4. How does the annual subscription and discount work?

You can choose an annual subscription with a 45% discount, equivalent to 5 months free. You can manage or cancel your subscription through your Google Play or Apple account settings.

5. Can I request a quote from a real professional?

Yes, this is Step 7 in the app. After entering your project details, you can select “De Vakman” (the professional). The app will then forward your job description and measurements to its network of affiliated professionals. They will contact you to provide a quote.

6. I have forgotten my password. What should I do?

Go to the login screen and click on “Forgot Password?”. You will receive an email with instructions on how to set a new password.

7. How can I delete my account?

You have the right to delete your account and personal data. Go to **Settings > Other > Delete Account** (or contact our support team). We will delete your data within 30 days unless we are legally required to retain it.

Couldn't Find Your Question?

Our support team is ready to help! We aim to respond to your enquiry within 2 working days.

- **Email us:** Info@Easy4Diy.com
- **Watch the video tutorial:** How does Easy4DIY work?

Do you have a suggestion for the app or have you encountered a technical issue? Let us know by email! We're building the app together with you.

About Easy4DIY

Step by step.

That’s our motto! Easy4DIY is the app that makes DIY projects stress-free. Whether you’re a beginner or an experienced DIY enthusiast, we guide you step by step, from the initial idea to the finished result.

With our smart app, you can easily calculate the materials, tools, and costs required for your project. You take the first steps and enter the measurements — the app does the rest. This way, you know exactly what to expect and avoid unnecessary trips to the DIY store.

Save time, money, and frustration, and get started on your project today!
